PROFESSIONAL EXPERIENCE

Bank of America

Software Engineer II - Vice President

September 2022 – Present

- Contributing to development and feature enhancements of a Single SPA, React-driven application which supports Enterprise Credit Risk reporting users in maintaining the bank's compliance efforts
- Writing unit tests using Jest and React Testing Library, contributing to functional test suites using QTest
- Developed a VSCode Extension to provide a React-form app, in support of an Extract-Transform-Load (ETL) tool
- Participate in pull request reviews and contributing to story refinements and requirement definitions

Application Programmer V (Contracted to Bank of America)

March 2022 – September 2022

- Contributed to business mandated Workbench related enhancements supporting Enterprise Credit Risk reporting users, supporting simplification/automation of end to end data sourcing and processing efforts
- Developed audit tracking software to assist the bank with its SOX-compliance requirements

Council on Foreign Relations, New York, NY

Associate Web Developer

October 2020 – March 2022

- Use skills in front-end development (including HTML5, CSS, JavaScript, D3, responsive email, Node) to develop websites, data visualizations, and tools for use by the editorial and research teams
- Code new features and resolve bugs for the flagship website and other products, using Agile development best practices, ensure my code passes SonarCloud tests and deploys smoothly through CI/CD via Git & CircleCI
- Develop and maintain responsive emails for sends via Sailthru
- Maintain bespoke data visualization development toolset

Design Technologist

April 2017 – October 2020

- Developed an interactive and static graphics development toolset, leveraging Node.js, Express, and D3, for data visualization designers to produce their own high-quality, bespoke interactive graphics
- Developed CFR's first responsive email newsletters using MJML and Sailthru, and maintain them across all departments
- Present work to various teams, departments, colleagues, and executive leadership

Stony Brook University, School of Journalism, New York, NY

Adjunct Lecturer

Summer 2015, Summer 2017

- Developed website to showcase student-journalists work on a WordPress custom installation
- Traveled with undergraduate and graduate students to Hawaii and New Mexico to instruct them as they reported on NASA's geological field research
- Taught students how to become self-sufficient multimedia reporters capable of interviewing, producing, and editing content
