EXPERIENCE

Bank of America

Software Engineer II — Sep 2022 - Present

Tech stack: JavaScript, TypeScript, React, Material UI, Tailwind, Node.js, Jenkins, SQL, Java, Spring, Ansible

- 2nd place company hackathon regional winner. Created React app to enhance risk operations capabilities.
- Built React app to support configuration and patching activities for risk rating software.
- Maintain full-stack Java/Spring application and associated SQL databases
- Cross-functionally lead security vulnerability remediation across the team's software dependencies.

Software Engineer Contractor, Diversant LLC — Mar 2022 - Sep 2022

Tech stack: JavaScript, TypeScript, React, Node.js, Redux.js, Material UI, OpenShift Kubernetes

- Built a microservice app using React to streamline transaction adjustments & reporting processes.
- Developed a VSCode Extension using React and TypeScript to support data processing efforts.

Council on Foreign Relations

Associate Web Developer — Oct 2020 - Mar 2022

Tech stack: JavaScript, React, Node.js, D3.js, Tailwind, CircleCI, Drupal, Sketch, Figma, Python

- Developed features for CFR.org using technologies across the full web stack.
- Maintained a marketing page written in React for CFR's centennial site.
- Created command-line tool to help automate the creation and deployment of interactive graphics.
- Developed features, data visualizations, and tools to support CFR's web publications.

Design Technologist — Apr 2017 - Oct 2020

Tech stack: JavaScript, Tailwind, Node.js, D3.js, Sketch, Figma, Python

- Implemented prototypes for a design system to support CFR.org's graphics redesign.
- Developed data visualizations and interactive slideshows for the CFR Editorial team.

PROJECTS

Concierge | *React, Next.js, TypeScript, Material UI, React-Query, OpenAI API* — May 2023
- Developed an AI-powered tool for Spotify users to explore music tastes and discover new songs.
- Utilized Next.js, React, Material UI, and TypeScript for seamless user experience and appealing interface.
- Integrated Spotify Web API and OpenAI's Chat API for insightful music listening habit analysis.
- Implemented authentication and session management with Next Auth for secure user experiences.

Vallenato | *D3.js, Express, Node, Webpack, CircleCI, Github Actions, Netlify* — July 2021
- Developed a data visualization creation utility to enhance the productivity of designers and developers.
- Automated deployments through GitHub and CircleCI integration, optimizing and reducing manual intervention.
- Leveraged Netlify for hosting and serving content, providing a robust and scalable solution for web delivery.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java
Front-end: React, Tailwind, HTML5, CSS, Material UI, D3.js
Back-end: Next.js, Node.js, Express.js, react-query, Prisma
VCS and CI/CD: GitHub, BitBucket, Ansible, Jenkins, CircleCI, OpenShift Kubernetes, Netlify, Vercel
Databases:: SQL, Oracle, Postgres

EDUCATION

Oregon State University
Bachelor of Science in Computer Science, Honor Roll — *Aug 2023 - Present*

Stony Brook University
Bachelor of Arts in Journalism & Political Science — *Aug 2009 - May 2014*
